

Show your love for your place on Earth...

- Collect pure rainwater for watering houseplants, gardens, shrubs and trees
- Prevent stormwater run-off
- Enhance the beauty of your home and yard

...with the **Sustain Your Place on Earth Rain Barrel** from

SUSTAINABLE COMMUNITY SOLUTIONS

These long-lasting, heirloom-quality rain barrels are made from 60-gallon French Oak wine barrels used in a northern California (Sonoma Coast) winery from 2005 through the spring of 2010.

They come straight from the winery to Minnesota. They have been fitted with a screened water inlet, American-made brass faucet, and a top over-flow fitting which can be used to connect barrels in series or to attach an overflow hose.

Barrel shown at left includes the standard brass American-made faucet. Options include the dragonfly, bullfrog, chickadee or turtle faucet (for an additional charge of \$21.00).

Availability: Barrels are currently available for pick-up in Northfield, MN. Delivery is available (Northfield and Twin Cities area – within 45 miles) for \$30 per barrel.

Price: Standard barrel
\$184.00 each (plus \$12.65 sales tax)

Barrel with decorative faucet
\$205.00 each (plus \$14.09 sales tax)

To order: Call or e-mail to place your order and arrange for pick-up or delivery. Payment must be made in advance by cash or check (made out to Bruce Anderson). (Sorry, no credit card orders.)
